

REVOLT AGAINST CARRANZA GAINS MORE STRENGTH

Two More States Join
With The Sonora
Movement

GEN. FLORES IN COMMAND

WASHINGTON, April 21.—Reports from Mexico, official and official today emphasized the strength of the revolutionary movement led by the state of Sonora.

Advices from private sources said two new states, Hidalgo and Tlaxcala, supported by their legislatures and state troops had joined the secession movement. Other despatches told of scattering but strong additions to the revolutionists led by General Arnulfo Gomez, Rodolfo Gallegos, Abundio Gomez and Amaro Murmuo. General Gomez was said to have occupied Tuxpan with 2,000 men and to be threatening Tampico, the vital center of Mexico's oil region.

The Mexican embassy issued a formal statement on this situation, declaring the revolution to be only a local movement. The statement added, however, that if the secession movement should spread it would result in the toppling of business curtailment of wealth and international commerce and the indefinite postponement of the foreign debt.

The embassy said the only state governors sympathizing with the rebellion were Governor Enrique Estrada of Zacatecas and the governor of Michoacan. The Zacatecas governor's accession is regarded as important owing to the important position of this state.

Another statement from the embassy said General Benjamin Hill, campaign manager for General Obregon who is a candidate for the presidency and is siding openly with the revolutionists had been wounded in a battle at Contreras in which the rebel forces were defeated.

General Hill by birth is an American.

General Flores in Complete Command

Nogales, Mex., April 21.—General Ansel Flores is in complete command of Culiacan, capital of Sinaloa and unopposed by Carranza forces, according to official information at Sonora military headquarters here today.

Sonora officials also said they had received confirmation of the report that General Arnulfo Gomez captured Tuxpan in the state of Vera Cruz and was marching on Tampico after endorsing the Sonora secession. In one week General Flores has gained control of more than half the state of Sinaloa, said to be the second richest state in the northern republic. Messages received today from Culiacan said city capitulated after a short fight and that hundreds of Sinaloans are joining the Flores army.

General Flores is concentrating his forces and artillery at Culiacan preparatory to attacking Mazatlan, the important west coast seaport. Reports said Carranza forces were being concentrated at Mazatlan and that a siege of the city might be necessary. Sonora officials declared today they were amply financially to carry on a campaign against Carranza and that assurances of support had been received from big financial interests. They are expressing pleasure over the lifting of the mail embargo from the United States to Sonora.

Try to Settle Differences.
Agua Prieta, April 21.—A commission named by the Mexican congress is enroute to Sonora to attempt to adjust the differences between the revolutionary state and the national government according to unofficial advices made public today by Francisco Elias, a leader of the Sonora movement against President Carranza. According to the information given out here, the commission was named Friday last after a conference with President Carranza. A message from Governor D. Huerta at Hermosillo said Culiacan, capital of Sinaloa, was captured after a few small skirmishes.

General J. M. Pina, commander of this district today said scouting party of Carranza troops had been seen at another pass thru the mountains from Sonora. This pass would take the Carranza troops to the new frontier of the American boundary line at the waters of Lake Michol, and his "face in the sunshine, as lazy as a Georgia negro."

SPRING OFFICIALLY OPENED BY JUDGE

Chicago, April 21.—Spring was officially recognized this morning when Judge K. M. Landis waded barefoot in Lincoln park.

Arriving late at his office, the judge explained that he spent the morning at the park, basking his feet in the waters of Lake Michigan, and his "face in the sunshine, as lazy as a Georgia negro."

DISTRIBUTION OF ALL CORPORATION REVENUE LEFT TO LEGISLATURE

Corporations Committee of
Con Cons Submit Tentative
Report on Matter

SPRINGFIELD, Ill., April 21.—A desire to leave the state legislature unhampered in passing legislation affecting corporations is indicated in the Illinois constitutional convention corporations committee tentative report drawn up today.

The committee decided to leave to the discretion of the legislature the distribution of revenue derived from the Illinois Central railroad. It also decided to allow the legislature to determine if cumulative voting for directors of private corporations should be permitted.

The funds derived from the Illinois Central, which is given a grant under the present constitution are distributed equally between the schools and general funds. Representatives of a number of counties thru which the Illinois Central's right of way extends have asked the convention to pro rate the funds to these counties.

The distribution will be left to the general assembly to decide if the convention's report is finally adopted.

Cumulative voting for directors of private corporations is permitted by the present constitution. Opponents of this plan say it allows minority stockholders an opportunity to gain trade secrets and form an opposition company. The committee's tentative report makes no reference to cumulative voting thus leaving the subject to the legislature.

Other features of the report include the prohibition of the use of the words "bank" or "banking" or "engaged in the banking business" by any person who has not complied with the state banking laws, and permission for private corporations to issue preferred stock without voting power.

The committee's report will probably be presented to the convention next week.

Two sub-committees were appointed by the legislative committee today to draft proposals on the question of limiting Cook county's representation in the general assembly. One of the sub-committees is composed entirely of Cook county members and the other of downstate members.

The latter held a meeting this afternoon but reached no agreement. The preamble of the present constitution will be left intact, the bill of rights committee has tentatively agreed. A delegation from Chicago last week urged the committee to strike all reference to God from the preamble.

Discussion of the suffrage committee's report occupied the session of the convention this morning. An amendment to disfranchise conscientious objectors was defeated but an amendment barring the objector from holding office was adopted. Both amendments were offered by Delegate S. J. Gee of Lawrenceville. Compulsory voting amendments were withdrawn.

HOLD APPROPRIATION AS UNWARRANTED

SPRINGFIELD, Ill., April 21.—The Illinois supreme court today held that the fifty first general assembly was unwarranted in making an appropriation of \$10,000 for the investigation of the Zion Ch. church and Wilbur Glenn Voliva, thus reversing a former decision in which it was held that the legislature was within its rights in making the appropriation.

The appropriation for the Zion City investigation was attacked by Walter E. Greenfield of Chicago in the Sangamon county circuit court. This court denied his plea for a mandamus and the case came to the supreme court at the last session. The court held at that time the application was legal but granted a rehearing upon Greenfield's application.

The court held in its opinion today that such an investigation was unwarranted and cannot be properly conducted by a committee of the general assembly.

CAILLAUX SPEAKS IN OWN DEFENSE

Paris, April 21.—Joseph H. Caillaux, former premier, on trial before the senate as a big traitor, charged with having had treasonable dealings with the enemy, spoke in his own defense today.

"I am a victim of the vanity, mediocrity and red tape of French officialdom, which I have always sought to destroy," he declared. He closed with an impassioned appeal for justice, but said he asked no mercy.

ENGLISH NOBILITY MARRIES

London, April 21.—(Canadian Press).—Captain Harold Mac Millan and Lady Dorothy Cavendish, daughter of the Duke of Devonshire, governor-general of Canada, were married at St. Margaret church at Westminster today. Queen Mother Alexandra, Princess Victoria, Prince Albert and the Duke of Connaught attended the wedding.

WILDE HAS EASY FIGHT

Camden, N. J., April 21.—Jimmy Wilde, British flyweight champion, so far outclassed Battling Murray of Philadelphia in their eight round bout here tonight that Commissioner John S. Smith of the New Jersey boxing commission, stopped the contest in the last round.

RAIL STRIKERS WILL LOSE THEIR SENIORITY RIGHTS

Announcement Made
By Spokesman for
General Managers

MUST REGISTER AS NEW MEN

NEW YORK, April 21.—Railroad employees who took part in the unauthorized strike will not be reinstated with their seniority rights it was announced tonight by J. M. Mantel, spokesman for the railroad general managers' association after a conference with the representatives of the four brotherhoods of railway employees. The returning strikers will be registered as new employees Mr. Mantel said.

E. A. McHugh, chairman of the strikers' executive committee, when informed tonight of the railroad managers' action, declared he would not ask the men whom he represents to return to work.

The announcement was issued after representatives of the railroad brotherhoods had spent several hours in an unsuccessful attempt to secure an extension of the railroad's ultimatum, which expired at noon last Sunday. The brotherhood chiefs sought to gain an extension until noon tomorrow.

"After careful consideration," the managers' statement said, "the managers decided that they could not consistently retire from the position they have already taken with the approval of the organization chiefs and that to accede to the request of the strikers would be detrimental to the best interests of the three parties involved, namely the public, the railroads and the organization."

In announcing that the strikers who return will be registered as new employees, Mr. Mantel said, "it will be a case of first come, first served." Men will be assigned to run in the order in which they report for duty," he added.

Mr. McHugh, whose official title is chairman of the executive committee on the Railroad Workers of America, gave out this statement.

"If the attitude of the managers in their denial of an extension of the ultimatum is for the best interests of the public notwithstanding that the Pennsylvania Railroad System according to latest reports has granted its employees an extension until 12 noon, April 22, then I will not ask the men whom I represent to return to work."

No Agreement Reached
Chicago, April 21.—John Grunau, leader of the outlaws Chicago Yardmen's Association who was released from jail at Joliet, Ill., today after friends had deposited \$10,000 bond, was expected to call a new meeting of striking switchmen to end the walkout following the tumultuous termination of a mass meeting today.

At the time of his arrest Grunau refused to furnish bond in the case. "Declaring that he had been sold out," and hooting down attempts of strike leaders to appeal to them to end the walkout, several thousand strikers today bolted a mass meeting when it was announced that Grunau, who was to have presided was still in jail.

Tumult reigned inside the hall and outside for a half hour, but there was no violence and no arrests were made.

Shannon Jones, R. S. Murphy and M. J. Kenney, who called the meeting urged the strikers to return to work and await action of the railroad labor board on their demands for increased pay.

"I hope you can see that it won't do any good to fight the government," Jones told the strikers. "You can fight the railroads but not the United States, and you are foolish to try. The only thing you can do is to go back to work and then submit your demands to arbitration. Our representatives have been turned down at Washington by the labor board, and we won't get any hearing until we have gone back to work."

As Murphy began to speak he was greeted with cries of "where's Grunau?" "We want Grunau." Efforts to maintain order were futile. Some one called out "the meeting's adjourned," and there was a rush for the door and policemen then cleared the hall.

The railroads announced that 729 men returned to work today and that livestock shipments in Chicago and the movement of livestock and fresh meat to Eastern points were normal.

SECURE CARD PITCHER

Kansas City, April 21.—The Kansas City American Association baseball club has secured Frank Woodward, a pitcher from the St. Louis nationals. It was announced tonight.

TOKIO, April 21.—(By The Associated Press).—The silk cotton and rice exchanges closed today as a result of ten days' slump in prices. With the close of the stock exchange the losses to speculators were estimated at 2,000,000,000 yen.

TOKIO, April 21.—(By The Associated Press).—The war office today announces the crushing defeat by the Japanese of 1,500 Bolshevik troops at Chirafski west of Chita in eastern Siberia.

SPRINGFIELD, Ill., April 21.—Acting Governor John G. Oglesby today directed a special election to be held Saturday, July 10 to fill the vacancy in the circuit court of the eleventh judicial district caused by the death of Judge Sain Welty of Bloomington. The district comprises the counties of Livingston, McLean, Logan, Ford and Woodford.

NE WOLFEARS, La., April 21.—Responding to appeals from various points thruout Mississippi and Alabama, the Gulf Division of the American Red Cross today sent funds to the storm swept area to aid in equipping and building temporary hospitals for the injured, sick and homeless. Nurses, relief workers, tents and supplies also were sent.

JACKSON, Miss., April 21.—Reports received today at the office of the governor put Mississippi's known dead in Tuesday's tornado at 135 with details lacking from isolated sections. State, federal and Red Cross officials are cooperating in furnishing relief to the sufferers thruout the wind-stricken sections. Tents, supplies, nurses and relief workers have been sent to help in the care of the injured and homeless.

CHICAGO, April 21.—A gradual return to stable conditions was predicted in an address today by David F. Houston, secretary of the treasury. Prices are abnormally high, he said, and the underlying causes are the great demand created by the war for commodities and credit all over the world, together with some profiteering. Prices will come down, but not immediately. People must be patient. Secretary Houston said that one of the greatest bulwarks during the war and "the period of inflation since," had been the federal reserve system.

UNION CHIEFS OBJECT TO COLLECTING DATA FOR RAIL LABOR BOARD

Claim Action Might Delay
for Months Pending Wage
Controversy

WASHINGTON, April 21.—A proposal that the railroads collect data for the railroad labor board on the wage demands of the employees met with sharp objection today from Brotherhood and Union officials who declared such action might delay for months adjustment of the pending wage controversy. In offering the cooperation of the railroads to the board in reaching its decision E. T. White, of the Association of Railway Executives said at least three months would be required to obtain from the roads by means of a questionnaire the wage data.

W. N. Doak, vice-president of the Brotherhood of Railway Trainmen, protested against White's proposal, declaring that if the roads could postpone settlement of the wage dispute for three months it could be delayed a year and that each month's delay meant the saving of millions of dollars to the roads.

Chairman Barton of the board, announced that hearings would be continued without interruption and the matter would be expedited. The railroads' suggestion was taken under advisement. Formal notice that their application for a hearing had been denied was given to the representative of the non-recognized St. Louis & Chicago Yardmen's associations today by the board. Spokesmen for the associations stated that they would report the result of their efforts to their men, but were confident they would not return to work.

DEMAND LAWS TO
PROHIBIT STRIKES
ST. LOUIS, Mo., April 21.—Resolutions demanding that congress enact laws prohibiting lockouts and strikes in all public utilities and essential industries were adopted at the closing session of the Mississippi Valley Association convention here.

Harry H. Merrick of Chicago was reelected president and New Orleans was chosen for next year's convention. Recommendations of the Mississippi Waterways Association that the two organizations merge and a waterways division of the association was formed.

COMMUNIST TESTIFIES IN FEDERAL COURT

Boston, April 21.—Isaac Ferguson, of Chicago, alternate secretary of the Communist party in the United States, testifying today in the federal court hearing on petitions for the freedom of persons ordered deported as alien radicals, said the party sought to "inspire the government not by force and violence, but by education and evolution."

Under cross examination the witness said he did not know whether the evolution could be accomplished without bloodshed and added that history had shown that all governmental changes were accomplished only by some shedding of blood.

ALLIES READY TO EXECUTE TURKISH TREATY BY FORCE

200,000 Troops are
Ready if Resistance
Develops

DOCUMENT NOT COMPLETED

SAN REMO, April 21.—(By The Associated Press).—The supreme council of the allies is fully prepared to execute the Turkish treaty by military force if necessary. The council accepted today a plan drawn for the employment of the allied armies by Marshal Foch, Field Marshal Sir Henry Wilson, British chief of staff and General Badoglio, Italian chief of staff, who were present at the morning session.

Two hundred thousand allied troops now are within the borders of the Turkish empire, strategically dispersed and these forces can be increased if Turkish resistance develops formidably, to any essential number. Greece will probably supply the largest number of troops. Supplementary naval plans were also approved by the council to which Baron Beatty, commander of the British grand fleet and Admiral Levassour, assistant to the chief of the general staff of the French navy, explained the plans in person.

The treaty which the council purposes to finish today does not include the final arrangements for mandatory states. They will simply be cut apart from Turkey and disposed of by the supreme council in the future. The council has determined to leave Kurdistan part of Turkish territory for a period of two years and then decide whether to leave it with Turkey or make it a separate province under mandate.

This morning the council discussed the composition of military, naval and aerial commissions in Turkey. It gave to the military and naval experts the instructions necessary for preparation of data for compilation by the editorial committee on articles relative to the Turkish treaty.

The limit to be fixed for the right of requisition to be exercised by these commissions also was considered. The question of Turkistan was settled by the council.

Take Up German Question.
Discussion of what shall be asked of Germany and how that is asked shall be exacted will be begun by the supreme council tomorrow. Tension between the French and British delegations on this subject has been considerable.

The French are declared to feel deeply that they have been the greatest sufferers from Germany's omission in fulfilling her treaty obligations that Germany's retention of war material obligates France to the main armed and that the reduction in coal deliveries keeps important French industries idle.

They say Germany during the last nine months indicated clearly to the French that she intends to do nothing she cannot be compelled to do and that unless the allies sharply warn her and prepare to enforce the treaty by forcible measures, Germany will default upon the essential clauses of the treaty, counting upon escaping any further penalties or upon a revision of the treaty greatly disadvantageous to the French.

The British position is that although Germany has defaulted in several extremely important respects, she must be required to fulfill her obligations, she can be made to do so without further occupation of her territories and by severe economic restrictions.

A British communication issued late this afternoon said: "The supreme council including also Marshal Foch, Field Marshal Sir Henry Wilson, General Badoglio and other military experts, discussed naval, military and aerial commissions for Turkey and gave the naval and military experts the necessary instructions for drafting the naval and military articles. Finally the council settled the question of Kurdistan."

Communication Issued.
The communication issued by the council after the afternoon session follows: "The council resumed discussion of the clauses of the Turkish treaty and afterwards heard naval and military experts on certain technical points which required clearing up. The sitting closed with certain territorial questions under discussion." Mandate For Armenia Taken Up.

NAME DELEGATES
Detroit, Mich., April 21.—Four of Michigan's thirty delegates to the national Republican convention at Chicago were named here today. They will represent the first and the thirteenth congressional districts.

Both districts are in Wayne county and the county convention adopted resolutions of taking up as early matters with the delegates in advance of the presentation of his credentials with President Wilson.

PRICES SENT DOWN BY HEAVY LIQUIDATION IN STOCK MARKET

Prices on Chicago Board of
Trade Also Sent Down
With a Crash

NEW YORK, April 21.—Heavy liquidation in the stock market today sent prices plunging downward. In one of the most severe reversals of the year leading issues, especially those of a speculative character, declined 5 to 15 points while General Motors dropped 42 1/2 points to 275.

The big crash came in the final hour when nearly one-third of the days extensive turnover of more than 2,000,000 shares took place. So great was the rush to sell that the ticker was fifteen to twenty minutes behind in reporting transactions.

The weakened bull position of professional traders, many of whom suddenly found themselves without funds for the extension of their commitments precipitated the decline in the local market, in the opinion of banking interests. From all accounts a large proportion of the day's selling originated at interior points, confirming reports that banks, especially in the west and southwest were again reducing unessential loans.

United States steel fell below par for the first time since the third week in March, declining to 98 1/2, a loss of 2 1/2 points. There has been a steady liquidation of steel stock ever since. Chairman Gary's announcement that no immediate "stock dividend" is contemplated.

Baldwin locomotive dropped 1 to 3 points between sales, reacting to 115, a loss of nearly fifteen points. Pierce-Arrow, Studebaker and Chandler Motors, with allied specialties; and Mexican and Pan-American Petroleum with related stocks, American woolens and other European issues, were featured in the collapse, dropping five to ten points.

The severe reaction also affected liberty bonds which fell to lowest prices yet recorded. Foreign exchange rates yielded with the rest of the market. Demand sterling dropped nearly four cents and francs nearly 30 centimes with sympathetic declines in other European issues.

Selling by Japanese interests to strengthen their reserves at home was given as one of the causes for the drop in exchange.

Grain Prices Smashed.
Chicago, April 21.—Excited selling smashed down prices this afternoon on the Board of Trade almost as much as quotations were first held at the beginning of the world war. Corn dropped nearly 9c a bushel, oats 6c and pork \$1.30. The flurry was due mainly to uneasiness regarding financial conditions.

It was a case of stampede. The rush to sell appeared to come with all the speed and force of high explosive. The duration was about fifteen minutes. The period which elapsed between the close of the New York stock market and the finish of dealings on the Chicago Board of Trade. When the final gongs cleared, the crowd of perspiring brokers from the pit, values had shown little if any power to rally and were at virtually the lowest point reached since the war.

At \$1.58 to \$1.58 1/2 compared with \$1.66 1/2 to \$1.66 1/2 at yesterday's finish.

The bulk of the selling was ascribed to liquidation on the part of ill-protected holders unnerved by the strain of the day's huge shrinkage in the worth of securities and bonds of staple commodities like cotton.

HAENSEL MUST PAY DEATH PENALTY

SPRINGFIELD, Ill., April 21.—Arthur E. Haensel, ex-serviceman who was convicted in the criminal court of Cook county for the murder of his wife, Cecelia Haensel, will hang in Chicago June 1. The judgment of the jury against Haensel was affirmed today by the Illinois supreme court.

The case was appealed to the supreme court on the ground that Haensel was insane when he killed his wife and that the instructions to the jury which tried the case were faulty. The court's decision says that the defendant was given a fair and impartial trial and that under the evidence the jury would have not been justified in returning any other than a verdict of guilty.

WHEAT GROWERS LOSE MONEY

Topeka, Kans., April 21.—Kansas wheat growers raised their 1919 wheat crop at an average loss of 43 cents an acre, J. C. Mohler, secretary of the state board of agriculture announced today, in a report compiled from questionnaires returned by 2,040 farmers on 101,062 acres. His figures show that it cost an average of \$25.20 to raise an acre of wheat, and that the return was \$24.77 an acre. The only gain was in the western division, where there was an average profit of \$1.89 an acre.

SIR GEDDES RECEIVED

Washington, April 21.—Sir Auckland Geddes, the new British ambassador, was received today by Secretary Colby at the state department, and was accorded the privilege of taking up as early matters with the department in advance of the presentation of his credentials with President Wilson.

JOHNSON HOLDS HIS LEAD, RETURNS SLOW COMING IN

Bryan Pushes Way to
Front in Delegate
Fight

HITCHCOCK DEFEATS ROSS

OMAHA, Nebraska, April 21.—Senator Hiram W. Johnson continued to lead for the Republican presidential preference as the votes of the Tuesday primary found their way slowly into tabulation headquarters of the newspaper Bureaus who were counting the votes here today, while William Jennings Bryan gained enough votes on the day's count to place him among the first four candidates for delegate at large to the San Francisco convention.

With more than one third of the precincts in the state reporting, Senator Johnson had a lead of 8,645 votes over General Leonard Wood with General John J. Pershing in third place. In the Bryan-Hitchcock skirmish for delegates at large the Lincoln statesman found one of his running mates Stephens, with him in the first four.

Democratic leaders declared Former Governor Mochel was a winner in the gubernatorial race by probably the largest plurality of any candidate voted for on Tuesday. At the same time, politicians asserted Governor McKelvie would win out in the final count. That Senator Hitchcock is a winner for Democratic presidential endorsement was assured after a few hundred precincts had been heard from, leading his opponent, Robert Ross almost three to one.

A real contest has developed, however, between Arthur Mullen and W. H. Thompson for Democratic national committee.

The vote for the various offices as tabulated tonight shows: 686 precincts out of 1,681 outside of Douglas county give the following vote for President:

Johnson	24,488
Wood	19,081
Pershing	12,190
Ross	745
860 precincts out of 1,849 in the state, including Douglas county give:	
Johnson	34,418
Wood	25,773
Pershing	16,675
Ross	922
796 precincts out of 1,849 give the following for Republican governor:	
McKelvie	18,990
McMullen	15,205
Pollard	10,009
Hall	5,936
McLaughlin	5,631
Mathewson	2,860
832 precincts out of 1,849 give:	
Shumway	1,535
Jackson	3,660
Clark	2,762
Morehead	14,914
840 precincts out of 1,849 for Democratic delegate at large shows:	
Neville (H)	22,679
Shallenberger (H)	22,553
Bryan (B)	19,887
Stephens (B)	19,789
Berge (B)	18,539
Thomas (B)	17,950
Nebie (H)	16,700
McNeny (H)	16,439
794 precincts including Douglas county for Democratic national committee out of 1,849 in the state gave:	
Thompson	16,897
Mullen	17,484
804 precincts out of 1,849 for Republican national committee give:	
Howell	33,237
McLoud	28,892
In the Democratic presidential race 816 precincts out of 1,849 including Douglas county give:	
Hitchcock	17,145
Ross	5,941

GEORGIA PRIMARY

Atlanta, Ga., April 21.—Complete unofficial returns from all the 153 counties in Georgia that held primaries yesterday, as received here tonight by the Atlanta Constitution gave Attorney General Palmer 140 votes in the state Democratic convention. Overalls and bungalow aprons would look fine in home gardens.

The weekly election has suspended for a time.

Nebraska is too small a state for both Bryan and Hitchcock.

"One lump clubs" are now in order, considering the price of sugar.

One lump ought not be so bad, but one small potato at present prices now looks like money.

Railroads begin to resemble Champ Clark's hound, they are sure being kicked from every side.

By the way the nations of Europe who signed the peace cov-

nant go right along with their adjustments in foreign affairs, it looks like it would make but slight difference if the United States senate fails to ratify the so-called peace treaty.

Decorating school room walls with copies of famous works of art gave a school teacher out west a new idea. She taught a school in the range cattle country of Wyoming, which is still producing the hardy, but least profitable breeds of live stock. Desiring to educate the community, better live stock, she believes pictures on the school walls will help do the work. This teacher has written to the agricultural department at Washington, explaining her idea and asking it to inform her where she can get authentic pictures of high grade animals. The department thinks so well of her proposal that it has given it publicity, in the hope that it will be taken up elsewhere.

ON OVERALL CLUBS
Retail dealers are not worrying concerning the overall clubs, remembering that only a short time ago there was a movement all over this country to refrain from the use of meat, in order to force down the price. The papers had columns of that story for several weeks, possibly for as much as two weeks. Millions of people were enrolled in the no-meat clubs and general movement. And then the movement died. It turned out to be all excitement, and as is usual in these cases, it was temporary. The strike against the use

of meats was not declared off; it died. An official in Iowa says: "The way to reduce high prices is not by going to extremes, but by sticking to a policy of sane, careful, intelligent buying." You must know he is right about it, for these "extremes" movements don't last long enough to accomplish results.

SOME FIGURES
Ordinarily figures fail to interest, but sometimes they come close to home. For instance, an authority says that to supply pulp for paper manufacturers, 8,600 acres of forest are being cut down every day of the year. That is 60 farms of 160 acres each.

Big figures. Yes, and so are these: Four tons of steel are used every day in making steel pens. That's 6,000,000 pens a day. Where do they go? And needles! What becomes of the 3,000,000 to 4,000,000 made each day? And pins! What a lot of pins are made, used and lost! Estimates are that our daily allowance is about 15,000,000.

Figures are figures, but some curious person has figured that the world uses daily 80 tons of pepper, tons of mustard and 80,000 tons of salt. And as to wool, silk and cotton for clothing! One is told that from 3,000 to 4,000 tons a day are worked up into various woven goods, but that most of it goes into clothing. And as to cotton, the estimate is that the world's share sold every day 11,000 tons of cotton stuffs. And the little silk worm in the mass is spinner enough so that every day of every week of every year 70 tons of silk goods are made and sold, mainly to add to the beauty of mankind.

GUARDED AGAINST FOREIGN INFLUENCE

The Republican Publicity association, through its president, Hon. Jonathan Bourne, Jr., has given out the following statement from its Washington headquarters:

"George Washington was not the originator of the idea of American avoidance of foreign influence in our governmental affairs. It is true that the utterances in his farewell address warning the American people

against entangling alliances has made him in the public mind the leading advocate of caution in guarding American institutions. But the framers of the constitution foresaw the probability of foreign attempt to direct the affairs of the young republic, and for that reason they inserted in the constitution a clause particularly designed to prevent the election to the high office of president any man who might by the remotest possibility be actuated by ideas of government acquired under foreign associations.

"That section which prescribes the qualifications of a president declares that no person except a natural born citizen shall be eligible to the office of president, and that no person shall be eligible to that office who shall not have been fourteen years a resident within the United States. Since the constitution also provides that in order to be eligible to the presidency a man must have attained the age of 35 years, it is evident that the framers of the constitution endeavored to take every precaution to guard against the election to the presidency of men who, although natural-born citizens, might have spent a considerable period of their lives residing in foreign countries. Since 21 years, the age of citizenship, and 14 years, the specified years of residence, make up the total of 35 years, which is the minimum age of eligibility, it was the evident intention to assure that the 14 years prior to election should have been spent in the United States.

"At the time the constitution was drafted and adopted, there was a large Tory element in this country. That element, although in a sense loyal to America, had a strong affection for the monarchical form of government and still had very kindly feelings toward the mother country. They were not admirers of a republican form of government. They had little confidence in the ability of the people to govern themselves, and naturally would take their ideas of government from the system in force in Great Britain. It was primarily to guard against the possibility of such men being elected to the presidency that this

14 years' residence clause was put in the constitution. Many of these Tories, during the Revolution, had gone to Canada or to Europe, but returned to this country after independence had been won. Some of these Tories were men of ability. They commanded a considerable following in the United States. Although it was exceedingly improbable, there was the possibility that by some division among the more ardent Americans, a man of Tory ideas might be elected to the presidency and carry out his inclination to restore some sort of affiliation with the mother country under which the United States would gradually lose its absolute independence and its equal station among the nations of the earth. Unwilling to take any chance of the forfeiture of the independence which had been won at so great a cost, the framers of the constitution used qualifying language which practically excluded all men who, by their residence abroad, had shown their preference for Old World ideals and had failed to acquire the full spirit of American institutions.

"Thoroughly convinced that a man who had not been during 14 years of his mature life a resident of the United States could not be as thoro an American as one who had spent those years here, the men who were chosen to draft a fundamental law for the new republic inserted the clause above quoted, and it was adopted by the Constitutional Convention without protest or debate. It is a clause the wisdom of which has never been questioned. However, it may apply technically, the spirit of that provision will never be lost sight of by the American voters."

Rippling Rhymes
By Walt Mason

THE HELPFUL RAIN

For months our state was dusty, no water fell thereon; the wheat was brown and rusty, dried out the sickly lawn. And oft we got together, with briny in our eyes, and cursed the sinful weather and all the forecast guys. And pessimism brooded among us, far and near, and it, alas, included much language punk to hear. Sometimes the clouds assembled and made a bluff at rain; then how we stood and trembled, and hoped—and hoped in vain! The cool winds came a-whopping and blew the clouds away; and we, with spirits drooping, went weeping to the hay. And all our faith was shaken in everything below; our world had lost its bacon, our heritage was woe. And then at last the water came tumbling from on high—Old Pluvius, he shot her from somewhere round the sky. All night the rain was pouring and plinking on the lee, and soon the hills were roaring in tumult to the sea. And then you should have seen us, how merrily we strode, the mudholes strewn between us, as we went up the road! Then all our griefs were banished, as cheap and tinhorn fakes, and pessimism vanished in less than seven shakes.

Plenty of Coats

Plenty of Trousers

—Last week we took for our text, "Plenty of Coats, but no Trousers", and explained to you just how that condition came about.

—This week we will give you a little talk on "Plenty of Trousers".

—The secret is just this—with each suit order an extra pair.

—You say, "Why it costs more!"

—Now, just a minute—does it?

—We say, No! Because the longer and full wear-value obtained from the coat and vest, much more than compensates for the first small added cost. Stop and recall how many coats and vests are discarded, while yet good, just for lack of trousers to match and you quickly will get the idea.

—Every one of our tailored-to-measure coats and vests will outwear two pairs of trousers. Buying in this way is true economy, the economy we are all called upon to practice these days.

—Come in and inspect the new Spring woolens and find out just how reasonably we will fashion for you a two-trouser suit.

WHITE HALL ELECTION
HOTLY CONTESTED

Mayor McLaren's Administration Overthrown by Voters—Other Interesting News from Greene County Vicinity.

White Hall, April 21.—Party designations were not made in connection with the city election Tuesday, but a spirited contest developed over endorsement of the administration of Mayor F. N. McLaren, and the anti-McLarenites made a clean sweep. In the first ward Hal W. Gahuly defeated George Chism, retiring alderman, 188 to 97. In the second ward Clarence Whitesides opposed, C. A. Evans withdrew, and Whitesides received 85 votes, three ballots being thrown out. In the third ward Dr. H. H. Seely defeated J. B. Fulton for the regular term 178 to 60, and for the unexpired term of Elmer Stout, resigned. Herbert Williams defeated Jule Hubbard 177 to 39. This tremendous sentiment against the mayor had its beginning with his refusal to appoint a merchant policeman in accordance with a petition of all the merchants to retain the incumbent, George W. Corder, and then the handling of the smallpox epidemic last winter.

The closing meeting of the Brotherhood until September was held in the Presbyterian church Tuesday evening with dinner in the chapel at which Rev. Ewert made a statement of possibilities for an enlargement of the scope of the organization next season to include boys and girls and women, as the new facilities offered by the improvements in the church basement will enable better facilities for entertainment. R. G. Smith presided, and Hal W. Gahuly, the new alderman from the first ward, was elected president for next season.

The congregation of men and boys moved to the main auditorium at the conclusion of the dinner, and a program, consisting of a song by Kenneth Hubbard, oration by Lyndell Rose and violin solo by Miss Dorris English, was carried out just prior to the introduction of the speaker, Alexander H. Bell of Carlinville. Mr. Bell greatly interested his audience with a metaphysical discourse on immortality, basing his remarks on the text from Job, "If a man die shall he live again?" Some of the hearers saw in the discourse a reversion back to former days of the various debating and literary societies that have graced White Hall, and one hearer as the proceedings were along could picture in his mind such men as Francis Fowler, Dr. A. W. Foreman, M. B. Moss, Major E. A. Giller, Capt. E. J. Pearce and others who so greatly enjoyed discussions of subjects really beyond human comprehension, but which were edifying to the audiences that were loyal in attendance on such sessions. Mr. Bell seemed to win a place along with these men in his handling of his subject Tuesday night. He had a ready manner and a Lincoln-like way of impressing his hearers. He answered his text from various deductions and argument in support of immortality. The desire for or belief in immortality seems to be prevalent with mankind under all circumstances and under all the various living conditions. The Indian believed in the happy hunting ground. All doubt and counter-argument is not conclusive that such a thing as immortality does not exist. Heat exists, but can't be seen. Various other points were brought up to show that because it is not visible is not proof that such a thing does not exist. We usually speak of going to another world far removed from this, but this is not necessarily the case, as man's spirit exists aside from his physical condition, and it remains after the physical body has passed away. Mr. Bell does not believe that it is possible for the spirit to bridge the chasm between it and the living to have intercourse in writing or speech. The ordinary picture of the angel with wings does not imply that the angel is possessed of physical wings, but implies the idea of locomotion in moving about on missions of holiness. Mr. Bell's definitions of locomotions were extended and grand.

At the conclusion Dr. Foreman took issue with the text by saying that he is thoroughly familiar with all the points and deductions made by the speaker, and that his conclusion is that man does not die, but that there is merely a transition into the realms of spiritualism.

The marriage of Herbert Saddler and Miss Mabel Baird took place at Bowling Green, Mo., Monday, and they returned to White Hall that night, being at present domiciled with his parents, Mr. and Mrs. Otis Saddler. The bride is a daughter of Charles Baird of Roodhouse. The groom is employed as motorman on the industrial railway.

John Hanks and Miss Mildred Turner were married at 7:30 p. m. Monday at the home of the groom's aunt, Mrs. Melvin Wait, by Rev. A. F. Ewert. The groom is the son of Homer Hanks of White Hall and the bride a daughter of T. M. Turner of Athensville. They will reside on a farm midway between Athensville and Scottville.

There is more sentiment at White Hall for wearing patched clothes than there is for the overall movement. The board of education will meet Monday evening to organize. It is not likely, though possible, that some of the teachers will be selected at this time.

The next entertainment by the Boy Scouts will be held in the Presbyterian church Thursday evening, and will be by the Helene Burgess Concert Co. This is the fourth of the five entertainments of the series.

FUNERAL OF EDWARD MALLORY
The funeral of Edward Mallory will be held from Mt. Emory Baptist church at 2:30 o'clock Friday afternoon in charge of the Rev. H. H. DeWitt.

Further Information
About Green Seal Batteries

Last week we told you how the batteries came to us and the process that they went thru till the battery was ready for the car.

You know that when you get something that you have to make yourself and watch it closely while doing it you know that you are going to have something that is worth while when you get through.

That is just the way of a Green Seal Battery; we get it absolutely dry, use our new bass wood separators (which by the way are the best separators that money can buy) proceed to build up the battery just like it would be made at the factory

After it has been made up and assembled it is then ready for the charging table to be given its proper charge, which varies in different types of batteries. It remains on charge for not less than forty-eight hours and not more than fifty-two, then it is given what is called a cadmium test which indicates the voltage in each individual cell, if in perfect condition it is ready for market.

So you see you can't go wrong in buying a Green Seal Prest-O-Lite Battery. We claim to have the best service in the country and if you don't believe it come and see for yourself.

Don't get the mistaken idea that we can't overhaul, charge or repair any other battery but a Prest-O-Lite for we surely can do it to a Queen's Taste.

Spring Is Here

Are you going to paint this year?
Did you ever stop to think what a coat of paint on your house or outbuilding would do for you?

It not only improves the looks of your buildings but it preserves the lumber from the weather.

Ho often have you driven by a place that was nicely painted and you commented upon the thrifty appearance of the property.

And while the old saying is "That clothes do not make the man" but in these latter years we all acknowledge that a well dressed man makes the best headway in this world, and so it is with your property, if it is well kept you will find that you have a higher standing in your neighborhood and among your associates.

We would call your attention that we have a full line of standard paints and oils for the interior as well as the exterior. Also a full line of brushes and painters' supplies, as well as a complete line of hardware, harness and farming implements.

How Long Will It Last?

Folks are just beginning to learn that batteries wear out just as surely as tires.

And having learned that fact they ask how many months or how many miles the battery is good for.

So the dealer must either guess, give instances, or confess he doesn't know.

As a matter of fact there is only one measure of a battery's life. It will serve as long as solution is present, plates hold together, and insulation is intact.

The better the insulation, the greater the chance of the battery for a long, useful life. This alone more than justifies the long search which ended in the perfection of Willard Threaded Rubber Insulation. Its effectiveness has been proved by the long average life of the batteries in which it was first installed over four years ago.

TAKES STAND IN BEHALF OF HUSBAND

NEW YORK, April 21.—Frail and gray-haired, Mrs. Augustus Drum Porter, wife of the suspended third deputy police commissioner on trial charged with wilful neglect of duty in connection with New York's vice-crusade took the witness stand today in her husband's defense, the only woman in the court room.

She testified that Porter was at home with her on the night of November 12, last at the very hour plain clothes men swore they found him under compromising circumstances with a woman in a raided upper west side apartment.

The case is expected to go to the jury tomorrow. Bernard Lowenthal, testified earlier in the day that he had called on Porter and remained with him until about midnight.

Mrs. Porter testified that on the night of November 12 she and her husband had returned home after dining at a downtown restaurant and Lowenthal called at 10 o'clock and talked business with Porter in his room. She said she had not gone to sleep when Lowenthal left and fled this time about midnight.

Porter's trial will be followed by the trial of Deputy Inspector Dominick Henry.

CHARLES L. MINTER OPENS OWN SHOP

Charles L. Minter, one of Jacksonville's well known plumbers, has gone into business for himself. Mr. Minter has for the past twenty three years been in the employ of George E. Matthews and Bernard Gause, having learned his trade with Mr. Matthews.

He will have his shop at 806 North Church street. Bell phone 354. Calls may also be made over Illinois phone 173 and Bell phone 273. Mr. Minter is a first class workman and will no doubt meet with success in his new venture.

KILLED A SNAKE

Yesterday morning as James Ellis, collector for the Journal, was walking out to view the lake he came across a good sized water moccasin near the east end of Michigan avenue. The reptile had evidently crawled out to get a sunning on the first good day but it was his last.

ABOUT THE ROADS

Several persons managed to get to the city yesterday in automobiles though generally the machines were pretty well plastered with mud as a number of annoying mudholes are to be found on many of the roads leading to the city. Two standbys are the Mayfield and James Rice roads. Then just south of the city beyond Maple Grove schoolhouse is a very bad place that really ought to have attention. Several other spots have been noted but the sun and wind of yesterday will soon make most highways passable if the good weather continues.

MUST FULFILL TREATY PROVISIONS

Brin, April 21.—Adolf Koester, the new prime minister of foreign affairs, in an interview with Vorwarts today, declared that Germany must strictly fulfill the provisions of the treaty of Versailles, for in that way only could she obtain a revision of the treaty.

Herr Koester said: "Only the German coalition government is trusted abroad and the entente would not allow a dictatorship of proletariat here. We must today, more than ever, have the trust of foreign countries. This is a necessary step to revision of the peace treaty."

NAVY DEPARTMENT SELLS TWO VESSELS

Washington, April 20.—The steamers Yale and Harvard were sold today by the navy department to agents for a Los Angeles syndicate, which will put them back on the Pacific coast run on which they were operating when purchased by the navy. The price for both vessels was \$1,755,000. Although it is understood the department paid more than a million dollars for such vessels, the amount for which they were sold exceeds their present appraised value by \$55,000.

The Yale and Harvard were among the first vessels taken over by the navy when this country entered the war.

MUNDAY MUST SERVE PRISON TERM

SPRINGFIELD, Ill., April 21.—The prison term imposed upon Charles B. Munday of Chicago on the charge of wrecking the LaSalle Street Trust & Savings Bank in Chicago in 1914 must be served. The Illinois supreme court decided today. The court affirmed the verdict of guilty brought by a jury in the Grundy county circuit court where the case was tried after a change of venue had been granted from Cook county.

Munday's case was brought to the supreme court two years ago after his conviction in Grundy county. The judgment of guilty was reversed and Munday was then retried in the Grundy county court and was again convicted. The case was again brought to the supreme court for review. Munday's attorneys in their arguments declared the indictment upon which he was tried was defective and that faulty instructions were given the jury.

The Grundy county court sentenced Munday to an indeterminate term in the Joliet penitentiary and fined him \$500. Former United States Senator William Lorimer, who was indicted with Munday in connection with the wrecking of the bank was found not guilty in Cook County.

MOVE POTATOES

Chicago, April 20.—Several carloads of potatoes, held on railroad sidings in Chicago late in March have been moved as the result of an inquiry it was said today by Assistant District Attorney R. A. Milroy. He is in charge of the government investigation of alleged profiteering by Chicago commission merchants in the sale of potatoes. In two cases, he said, horses were used to move the cars.

SENTENCE COMMITTED

Springfield, Ill., April 20.—The state division of pardons and paroles today recommended that the sentence of life imprisonment imposed upon Guy Locke by the criminal court of Cook county in May 1902, be commuted to fifty years. Locke is serving his sentence at the Joliet penitentiary. The pardon board acted upon thirty one applications for commutation of sentence but denied all the applications except in the case of Locke.

WASHINGTON BELLE WEDS

Washington, April 20.—Miss Nancy Lane, daughter of former Secretary of the Interior and Mrs. Franklin K. Lane and Philip C. Kauffman, of this city, were married today at St. Johns Episcopal Church.

Mrs. Wilso, wife of the President, Justices of the Supreme Court, members of the cabinet and diplomatic corps were present.

RECEIVES BOX OF FLOWERS

Mrs. Leslie Switzer of R. R. 2, received yesterday a box of beautiful flowers from her sister Mrs. C. L. Smith of Lindsay, Cal., which were very much appreciated. Mrs. Switzer has been confined to her bed for four weeks with rheumatism.

RELIEF FOR SUGAR SHORTAGE

Chicago, April 21.—Orders for nine trainloads of sugar, approximately 244,000 bags, released by the Canadian government, were placed by a Chicago brokerage firm.

The shipment is expected to arrive early next month, it was announced, and 175,000 bags will be distributed in Chicago to relieve shortage. Quotations to jobbers will be 16 cents a pound, officials of the firm said.

NOMINATED FOR PRESIDENT OF CUBA

Havana, April 21.—Senator Maza Y Artola was nominated as candidate for president of Cuba by the national assembly of the Republic today.

The senator has opposed many of the most important measures by the present administration, especially the Crowder electoral law.

PLAN FOUR CITY CIRCUIT

Grand Rapids, Mich., April 21.—Announcement was made here tonight by President E. W. Dickerson that the Central League will be a four club circuit this year with Muskegon, Ludington, Kalamazoo and Grand Rapids composing it. The announcement followed President Dickerson's return from a joint meeting of a proposed Ohio-Indiana-Michigan League at Dayton, at which it developed that only two cities named in Ohio and Indiana harmonized, Springfield and Richmond.

"LEW CODY THE ACE OF HEARTS"

Lew Cody to be seen at the Grand Theatre Thursday, Friday and Saturday.

Girls—Girls—Girls! Not the familiar bathing beauties nor those of musical comedy variety, but girls, lovable, kissable girls are the feature of "The Beloved Cheater." The Robertson-Cole Special in which Lew Cody will star.

Some one has said that there are fifty seven varieties of love-making. Well, here are the whole fifty seven exemplified by the master hand of the ace of hearts himself.

Lew Cody believes in beauty. This is perfectly apparent not only in the visions of feminine loveliness, but in the spectacular settings and gorgeous costumes. In keeping with these ideas, he has surrounded himself with a number of famous screen beauties, among whom will be seen Eileen Percy and Dora Pawn.

There will also be three acts of vaudeville.

Prices, entire lower floor, 50c; balcony, 35c; children, 25c; gallery, 25c.

WILL GO FOR ALLEGED AUTOMOBILE THIEF

Wednesday Chief of Police Kiloran received word from Deputy Sheriff George Woods of Franklin, that J. L. Baker and been located in Litchfield. Baker is the man, it is said, who stole the automobile of Albert Rinaker from the public square here several weeks ago. The car was recovered by the police at Nortonville.

Chief Kiloran said last night a warrant had been sworn out by Mr. Rinaker for Baker's arrest and that a police officer accompanied by Mr. Woods would go to Litchfield today to bring Baker here to answer to the charge.

MISS OLA GIBSON WEDS WINFIELD S. SCOTT

Miss Ola Gibson and Winfield S. Scott, prominent young people of Franklin, were united in marriage at 5 o'clock Wednesday afternoon by the Rev. D. V. Gowdy at Centenary church parsonage.

The ring service was used and the ceremony was witnessed by only the immediate families of the contracting parties. Following the ceremony the wedding party went to the Peacock Inn where a wedding supper was served.

The bride wore a handsome navy blue tulle dress with a long train and carried a bouquet of white carnations. She is the daughter of Mr. and Mrs. A. C. Gibson of Franklin and is a graduate of the Franklin high school. She is a member of Providence Methodist church and has been actively identified with the work of the church.

Possessed of many charming traits of character she has won a large number of friends in the community in which she has always lived.

The groom is the son of Mrs. Elizabeth Scott and was born and reared in Franklin. Before the world war he went to California and was a resident of that state for several years. He returned to Franklin and enlisted in the aviation branch of the army and was discharged with the rank of top sergeant.

AMERICAN DAY WILL BE OBSERVED HERE

Exercises will be held at Grand Opera House Sunday Afternoon, May 2.—Address will be given by Attorney General Brundage.

American Day will be observed in Jacksonville Sunday, May 2. The day will be observed by 1350 cities throughout the United States at that time. The exercises will take place in the Grand Opera House at 2:30 o'clock.

The committee in charge has prepared an interesting program for the occasion, which includes an address by Attorney General Brundage.

Preceding the address a musical program will be given by a chorus of fifty young women from Illinois Woman's College. There will also be a special service for the alien residents of the county who have become naturalized citizens in the past year. These will attend in a body and the exercises will have a special interest not only to them but to all who attend.

All of the churches in the city will unite in these services. Members of the local post of the American Legion, G. A. R., D. A. R., W. B. C., and Home Guards will attend the services in a body. Members of the American Legion in full uniform will act as ushers.

Farm Bureau Notes

Rock Phosphate

There is considerable interest in rock phosphate this spring. Two carloads have just been ordered for Morgan county farmers and one of the farmers elevators is interested in ordering three carloads for its members. The I. A. A. has a special phosphate man at the shipping point in Tennessee. This man samples every carload sent out and has it examined by a chemist in his employ so that the buyer is sure of getting his money's worth. If farmers will only order for some other months than August and September there will be little danger of a delay in getting rock phosphate.

State Fair Exhibit

We would like to see Morgan county make an exhibit at the State Fair this year. There are special premiums for county exhibits and it will certainly be stimulating to the agriculture of the county to compete for these premiums. We ought certainly to make a showing in seed corn and swine. We shall be glad to furnish particulars to interested parties.

Placing Farm Labor

No other phase of farm bureau work seems so generally acceptable to farmers and farm hands as the placing of farm labor. We have used the local press freely in letting both farmers and farm hands know that we are running a free employment office for farm labor. In addition we have sent posters and circulars to points in southern Illinois where labor is more plentiful than here. Last Saturday we sent men to Prentice, Franklin and Pisgah.

Many Callers at New Quarters

The number of callers at the farm bureau office has increased with the change of location. Every one seems to think the new arrangement is much more satisfactory than the old. C. A. Rowe and the county agent as a special committee, recently purchased considerable new equipment. The members express themselves in favor of further expansion, but no definite plans are in view.

Liberty Touring Car

The difference of the Liberty's riding and driving it not to be wondered at when one learns the steadfast quality of the car, which becomes more and more apparent as the miles roll up.

To this unmistakable worth, and also to the high order of designing displayed even in the very minor details, may be attributed qualities so divergent as the unusual comfort which the Liberty affords, and the uniform reasonableness in the cost of operation and upkeep. The car is one of the moderate weight in proportion to its size, amply powered, with a responsiveness and flexibility that are remarkable.

It is replete with features that have literally commanded the enthusiasm of Liberty owners. The upholstery is of genuine leather in the French plated type, fitted over unexcelled special cushion springs. Plainly-marked side curtains are carried in a very accessible compartment back of the front seat. The steering wheel is of black walnut, properly corrugated around the inner surface. There are special top holders, horse-hair carpets in each compartment, a rear curtain light of beveled plate glass set in a heavily nickle-plated rim, and an equipment that is considered exceptionally complete.

ANNUAL MEETING OF STATE STREET CHURCH

Members Vote to Aid Passavant
Hospital in Substantial Way—
Reports of Various Church Or-
ganizations Received.

Members of State Street Presbyterian church, in annual session Wednesday evening, voted practically unanimously to give four per cent of the annual church budget to Passavant hospital. This will be a most generous contribution and if other Protestant churches follow the example set it will result in placing the hospital on a sound financial basis.

The meeting proved to be one of unusual interest and there was a large attendance. Reports of the various church organizations showed an increased interest in church work over the previous year. Another item of interest was an increase of \$300 in the salary of the pastor.

At 6:30 o'clock a supper was served by the men of the church. It was an excellent repast and greatly enjoyed. L. O. Vaughn, J. B. Siebert, C. A. Johnson, Walter Smith, E. E. Grassley and Worthington Adams were in charge, with Carl E. Robinson acting as head waiter.

The business session followed, with Rev. W. H. Marbach acting as moderator and E. M. Dunlap as clerk. The various reports were then received.

Reports of Activities
T. M. Tomlinson, clerk, reported for the elders. The report showed that 38 additions had been made to the church during the year.

F. E. Farrell, treasurer, reported the annual expense budget to be \$5,593.83. The total church benevolences for the year were \$2,078.24, as against \$920 for the year previous. This amount was distributed among the eight boards of the Presbyterian church.

P. V. Coover made the report for the trustees and J. B. Siebert for the deacons. William Floreth, secretary, made the report for the Sunday school. The report showed an increase in both attendance and interest.

In the absence of the former president, Mrs. Mary Carriel, the report for the Woman's Missionary society was made by the secretary, Mrs. John Cherry. She reported a greatly increased attendance and total financial collections of \$455.

Former president, Mrs. C. A. Barnes, reported for the Ladies' Aid society. Mrs. E. M. Dunlap, the treasurer, reported receipts of \$418.79, and disbursements of \$369.94. This included the furnishing of a room at Passavant and donations to the Y. W. C. A., the Social Service League and like organizations. A \$50 Liberty bond was given to Illinois College, in addition to the above disbursements. The society also installed the boulevard lights in front of the church.

John L. Johnson reported for the music committee. Miss Cora Cherry reported for the Y. P. S. C. E. She reports \$12 for church benevolences and increased interest and attendance. Four Expt. Endeavorers were added during the year.

Discuss Financial Budget
There was considerable discussion of the financial budget for the coming year. It was the sentiment of the members that in order to meet the obligations for the ensuing year it will be necessary as far as possible for every member to increase their pledges at the very least 25 per cent.

The following officers were elected for the ensuing year:
Elders—William Nicol, Carl E. Robinson, William Floreth.

Trustees—William Barr Brown, J. K. C. Pierson, E. M. Dunlap.
Deacons—Emmett Miller, Edward Tomlinson, H. C. Goebel, Felix M. Farrell.

DOES IT PAY TO BREED GOOD CATTLE?

The Dairy Husbandry Department of the University of Illinois can just about convince you that it does. At the recent Chicago sale of the Illinois State Holstein Breeders' association, three remarkable animals—two cows and a calf—developed at the University by careful breeding operations, were sold for \$1,575, \$600 and \$2,000, respectively.

Besides selling for good prices, the cows have been great producers. One of the cows, Pietertje Parthena Tritonia, now six years old and a very good individual, had produced 15,760 pounds milk and 632 pounds butter in 365 days when two years old. The other cow, Sarcastic Lady Agnes 2d, a granddaughter of Sarcastic Lad who won grand champion at the St. Louis World's Fair, is eight years old and had produced 21,077 pounds milk and 861 pounds butter in 365 days when seven years old. The calf, Illini Homestead Hartog, is a son of Juma Longfield Homestead, owned by the University, and the cow that holds the Illinois State butter record with a production of 24,655 pounds milk and 1,035 pounds butter in 365 days.

The University has spent a number of years in developing the present herd of cows and as a result there are a number of animals in the herd that are considered even more valuable than those sold in the State sale.

Judge W. S. Moscrip of Lake Elmo, Minn., who is considered the world's greatest judge of Holstein cattle and who selected the animals for the sale, bought Tritonia at \$1,575; French Brothers of Shipman bought Sarcastic Lady at \$600; and the calf, Illini Hartog, went to the Lisle Farms Company, owned by Jay Morton, Chicago, for \$2,000.

Eliminate Oil Troubles
Give High Compression

Double Seal Piston Rings
carry money-back guarantee

Automobile and Tractor Owners, Attention

Double Seal Piston rings will stop your oil troubles and give you a wonderful increase of power which will surprise you. Over two thousand have been sold here in Jacksonville by the various garages and your garage-man can tell you about them and supply them for you. These rings have a money-back guarantee that will satisfy you. The construction is so that the top is one piece and the inside is also one piece, preventing carbon from packing and oil gumming, thus maintaining original efficiency. The wall of the cylinder is sealed and the groove is also sealed (thus the name Double Seal) which holds the compression and checks the oil from getting into the combustion chamber. Equal compression enables you to perfectly adjust your caburetor and get a 25 per cent greater mileage from a gallon of gasoline and also 500 miles on a gallon of engine oil.

A Woman's Mistake

Substitutes Often Worthless

It is a well-known fact that Lydia E. Pinkham's Vegetable Compound is the most successful remedy for woman's ills obtainable. Actually thousands of women have proved this to be true. Notwithstanding, some women make the mistake of trying something else, said to be just as good, simply because it is new.

Is it not foolish to risk the possible bad results of such experiments—and is it not better to depend upon a medicine that you know is reliable—a medicine that has had no equal for more than forty years?

Read what these Women Think About It

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back, lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."—ELIZABETH WALKER, 11, R. 2, North East, Md.

L. F. O'Donnell

In temporary quarters at
216 NORTH SANDY STREETDon't Expect to be Cured
of Fiery Skin DiseasesBy Old-Time, Out of Date Methods
of Treatment.

Usually those who continue to suffer from stubborn ailments are those who refuse absolutely to heed the teachings of medical science. New discoveries are being constantly made, and those who fail to take advantage of the wonderful accomplishments of men of science will continue under the handicap of disease.

Your eczema, tetter, boils, pimples, acne, scaly skin eruptions, and burning fiery irritations that cause so much discomfort by their irritating itching, come from a tiny disease germ in your blood, which multiplies by the millions. These germs find some weak spot where they can break through the skin and set up their attack, and if you have ever had any form of these skin disorders, you know what real torture is.

The reason these disorders appear so stubborn and hard to get rid of, is because they are not given the proper sort of treatment. In other words, the irritation and itching becomes so intense that the patient thinks only of relieving his discomfort, instead of directing his efforts toward getting rid of the cause of it all. Hence the constant use of lotions, salves, ointments and ointments can make no

impression whatever on your trouble, other than to afford some temporary relief.

But why be content with mere temporary relief? Are you not desirous of being permanently rid of this annoying trouble that is a source of such constant torture? Wouldn't you give almost anything to be once more free from the itching and burning that makes your skin seem like it was on fire?

Then throw aside at once such makeshift treatment that can only reach the surface, and begin taking a remedy that goes direct to the source of your trouble. Go to your drug store, get a bottle of S.S.S. and begin a thorough course of this fine old blood medicine that kills the germs that creep into the blood and cause all of your skin discomfort. S.S.S. is a purely vegetable compound, made from roots and herbs of recognized medicinal value. It so thoroughly cleanses and purifies the blood that the germs of disease are eliminated, and then real relief comes.

This fine old remedy is the sane and sensible treatment for your skin disease, as you will find by giving it a trial. If your case should need special advice, it can be had without cost to you, by writing to Chief Medical Adviser, 14 Swift Laboratory, Atlanta, Ga.

Daily Market Report

HEAVY LOSSES IN
STOCK MARKET

New York, April 21.—Quoted verily active stock market, the demoralization, many leaders showing extreme losses of 5 to almost 45 points.

Apart from the increasing scarcity of time funds, there were no developments in the money market to explain the decline which far exceeded in volume and scope any similar movement since the early weeks of the year. A factor of more than sentimental importance in the day's set-back was the further severe reaction of liberty bonds to lowest prices yet recorded on very heavy offerings. Some of these prime war flotations fell to levels where they represented an interest return of almost 7 per cent.

Selling of liberty bonds proceeded from various sources, but was popularly attributed to large corporate interests which probably found it more expedient to liquidate their holdings than engage in new and costly financing.

Conspicuously weak stocks included General Motors, at an extreme loss of 42½ points to 27½; Baldwin Locomotive, which was extremely erratic toward the end at a decline of 14½ points, and various other motor equipment; steel and oil issues, which furnished net losses of 3 to 10 points.

Bonds, including standard rails and industrials, followed the course of government issues, losing 1 to 2 per cent. Total sales, par value, aggregated \$20,250,000.

GRAIN TAKES

A BIG SLUMP

Chicago, April 21.—Grain and provisions collapsed suddenly in value today under an avalanche of selling. The strained financial situation as reflected by the Japanese banking flurry and by severe declines in the New York stock market proved too heavy a burden for corn and allied commodities. The close change here in every pit was semi-demoralized, with corn 4½ to 8½c net lower; May \$1.66½ to \$1.68 and July \$1.58 to \$1.58½. Oats finished 4½c to 6c down. In provisions the losses for the day ranged from 25c to \$1.3. Weakness was apparent in the corn market as soon as trading began. At first, however, financial difficulties, although given unusual scrutiny, did not obtain chief rank in importance as affecting prices or activity of dealing here.

Anticipations that the railway strikers in Chicago would vote to return to work and that with better weather the receipts of corn would be likely to increase counted most in the early dealings. Rallies ensued when the strikers' meeting broke up in disorder. Confidence of holders, nevertheless, was visibly unsettled by the prospect of industrial shutdowns, threatened by continued halting of railway traffic. Under such circumstances, a jolt like the break in prices in Wall street was more than the market here could withstand. Buying power seemed to flatten out completely, and during the last fifteen minutes whirlwind selling took place with last prices at the nearly bottom point reached.

Oats tumbled with corn. Longs unloaded heavily. Notwithstanding higher quotations on hogs, provisions were depressed by the fall of grain.

Laundry Cost!

When You Have a

Thor
Electric Washing
MachineMADE AND GUARANTEED BY THE
HURLEY

Machine Company

Oldest and largest manufacturers of exclusively Electric Washing Machines in the world. Also makers of THOR Electric Ironers and THOR Electric Vacuum Cleaners. Established 1906.

Down comes laundry cost when you have a Thor Electric Washing Machine. How laundry cost tumbles. Less time, less materials, one-sixth the wear on clothes, and a minimum effort are a few of the benefits of Thor Washing. A big washing can easily be done in an hour with about half the soap you now use. Press a button, pull a lever and the Thor does all the work of washing.

Nearly Half Million Women Use It

They have learned that a Thor saves them money—that while they are paying for it the cost is no more than they would pay to have their washing done by hired help. A small payment down brings the Thor to your home—then, after it is paid for, it is yours forever—to go on washing for you for a lifetime. Every known improvement that goes to make the Thor a

perfect washing machine is offered. All transmission is by gears safely enclosed. No flimsy belts to break or slip. The Atalog absolutely protects the motor against overloading. The revolving, reversing wooden cylinder cannot injure the finest fabrics. The Thor is self cleanable. It is never necessary to lift the cylinder.

\$10

BRINGS YOU A THOR

Just pay \$10 down and we will deliver the Thor. Pay no more for a whole month, then only small monthly payments. Every month the Thor saves you more than you pay.

Call or Phone for Information

Don't let another washday go by without seeing the Thor. Come in to our shop or phone and ask to have the Thor delivered at your home.

Are You Doing the Same Thing as Bathing in Dirty, Stagnant Water?

Not if you know it—you are not. But perhaps you never thought of it in just that way.

You use water in washing face, hands or body for the purpose of cleansing. You use clean water—not dirty, stagnant water.

You use soap with the water for the same purpose—cleansing. But, did you ever stop to consider the cleanliness, the purity of the soap. You should. Soap should be just as clean, just as pure as the water you use. All soap is not.

Remmo Sterilized Toilet Soap is—and you know that it is. In the first place Remmo is produced from the highest grade and purest ingredients procurable. Then it is sterilized at 198 degrees Fahrenheit. This process of sterilization eliminates any impurity that might have found its way into Remmo Soap during its manufacture. Remmo Sterilized Toilet Soap is the purest soap that can be produced—it is pure when it reaches you. It is pure when you use it. It possesses remarkable cleansing quality. Gives a copious creamy lather. It cleanses thoroughly. It beautifies the skin—leaves it refreshed and invigorated, with feeling of cleanliness that is a delight to experience.

Despite the high quality and absolute purity of Remmo Sterilized Toilet Soap, it is not expensive. Fact of the matter is, it costs no more than ordinary Toilet Soap. So there is no reason why anyone should not enjoy the luxury of this purest of soaps—and its many benefits.

Movement—Rook Club Met
Tuesday—Other Items From
Chapin.

Chapin, April 20.—Thursday, April 22nd at 7:45 o'clock at the Christian church will be given one of the most interesting programs ever held here. It will be under the auspices of the Christian Americanization Movement, with an address by Dr. J. S. McCullum, Seattle, Wash. President of the movement, assisted by four young men of different nationalities, as follows: Russia, Poland, Assyria and Norway.

No admission will be charged and no collection taken. The Christian Americanization movement has for its object the Americanization of foreigners in America. It is sponsored by the International Christian Missionary association who is raising twenty-five million dollars to support and endow the work. The International Christian Missionary association is an organization of the Christian church which supports colleges in Seattle, Washington, Eugene, Oregon and in Minneapolis.

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and any one who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcline and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL
HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the greatest and quickest remedy for nervous run down, weak, enemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—Wonderful results.

DAVIS SWITCH

The Routt school election went off very quietly. John Costello was elected for another term of three years. Miss Cathryn O'Meara was engaged to teach the coming term of school. This will make the fourth term at the Routt school for Miss O'Meara, which goes to show the parents and children knew the value of a good teacher.

Mrs. Jack Leach received word from her nephew Dick Filkin of Winchester, telling of the arrival of a daughter born April 6. This makes the third daughter born to Mr. and Mrs. Filkin.

William Paul and daughter Alice were recent visitors in Carlinville. Mr. Paul being called to Carlinville on business.

HAVE COLOR IN CHEEKS

Be Better Looking—Take
Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

The Cheapest Tractor on the Market

By careful investigation we find the cheapest in price is not the cheapest to own. A one-purpose machine may suit some but it does not fill the want of the farmer by 50 per cent. If you are a real business farmer you will use your pencil and then you will prove to yourself that The To-Ro is the machine you need on your farm.

Efficiency is the Pass Word to Success—We furnish just what we sell and we make good.

TO-RO CULTIVATOR

The To-Ro Convertible Power Cultivator fills the gap—making it possible with this wonderful Two in One machine to do all your work, and dispose of your horses.

We are not offering you a combination or a make-shift; neither are we offering you an experiment. We have not spoiled the Cultivator to make the Tractor—each machine is complete in itself. Note the completeness and beauty of design of each machine.

There is a real factory behind these machines owned and operated by experienced men who know the game. Our engineers are not inventors but practical men who have supplemented their technical education by actual experience in

operating a farm. Our chief engineer, after graduation, operated a farm for 6 years. He knows the needs of the farmer.

The To-Ro is built not only to stand up and give service but with a view to ease of operation. The best of material and workmanship enter into its construction. It is equipped thruout with the bent anti-friction bearings money can buy. All gears are enclosed and run in oil. No chains or open gears to cut out and give trouble.

—The To-Ro Cultivator has been successful in the field.

—First—Because it will do the work it is intended to do.

—Second—By reason of the pivoting drive wheels—enabling the operator to get quick action on the gangs and to guide his machine with ease, in fact, to cultivate better and faster than with horses.

—Third—Because all levers are within easy reach of the operator—simple and effective.

—These are but a few of the many exclusive features of the To-Ro Power Cultivator, as we can tell you but little of this splendid "Two in One" machine in this space. Call in and see us. We will show you.
